

Your chance to explore your ancestry using hands-on, state-of-the-art techniques

Free half-day workshops in April & May

Use biotechnology to learn where you came from and to see where you can go!

These workshops will provide students with real world, hands-on experiences in biotechnology. Students (and parents) will determine their common maternal ancestors and their migration patterns across the world. This is your chance to learn about the educational and employment opportunities in Biotechnology!
